beauty

DISCOVERING YOUR NATURAL BEAUTY

Led by Dr. Fabio Cantarella, a regenerative medicine expert, Palazzo Fiuggi's beauty clinic is a professional facility guided by exclusive and distinctive protocols designed to enhance a guest's natural beauty.

Under his expert guidance, the team of professionals conducts highly customised, state-of-the-art treatments to deliver quality results and promote long-term well-being.

A pathway that begins at Palazzo Fiuggi and continues until the end of your stay, at home, thanks to a line of cosmetics advised by Dr. Cantarella's team: it is the perfect balance between scientific discipline and the regenerating powers of natural ingredients.

MORE THAN JUST A TREATMENT

MAXIMUM OFFER

Regenerative and corrective aesthetic treatments to meet every beauty need.

PRIVACY AND CONFIDENTIALITY

Palazzo Fiuggi offers an environment of discretion and comfort to ensure maximum privacy during and after the treatments.

LATEST GENERATION TECHNOLOGIES

Use of the latest and advanced technologies for safe and effective results.

SPECIALIZED MEDICAL STAFF

A team of expert and qualified doctors dedicated to the well-being and beauty of our clients.

LIST

MEDICAL AESTHETIC CONSULTATION

€ 300 - 30 MIN

MS-SKIN ANALYZER

MS-Skin Analyzer aims to provide scientific support in skin analysis for guests who want a 'more youthful and groomed image'. It uses five light sources, eight spectral imaging, an AI-based intelligent algorithm and three-dimensional skin analysis imaging to comprehensively and objectively analyze 15 facial skin issues from the surface to the deepest layers so that skin care has a scientific basis and precise rules to follow. There is the option of performing a basic analysis (BASIC program) for a complete facial skin analysis, and an 'in-depth analysis (Medical Follow Up program) with a 75X magnification microscope for a scientific skin examination on one's skin imperfections.

- Skin Analyzer BASIC- € 150
- Skin Analysis Medical Follow Up - € 500

FACE INJECTABLE FILLER

Cosmetic fillers, or dermal fillers, are injectable substances used to enhance facial features and restore volume lost due to aging, smoothing out wrinkles and fine lines, and adding fullness to lips, cheeks, and jawline, with a minimally invasive procedure and results lasting from months to a couple of years.

- Biorevitalization - €1.000 - 30 MIN
- Lip fillers - €800 - 30 MIN
- Hyaluronic Acid for face
(REVOK50) - €1.000 - 30 MIN
- Shallow wrinkle fillers - €800 - 30 MIN
- Deep wrinkle fillers - €800 - 30 MIN
- Hyaluronidase injection - €800 - 30 MIN

BOTOX

Botox, short for botulinum, is a popular cosmetic treatment that temporarily paralyzes muscles to reduce fine lines and wrinkles, commonly treating the forehead, crow's feet, and frown lines, with quick, minimally invasive procedures and little downtime; it's also used for medical conditions like chronic migraines, excessive sweating, and muscle spasms.

- Micro-botulinum or Biobotulinum -
€1.000 - 30 MIN

BOTOX FOR EXCESSIVE SWEATING

Abnormal excess sweating of the limbs, armpits and face, generally not associated with body temperature. Botox blocks the nerve signals that stimulate the sweat glands, significantly reducing sweat production. Botulinum toxin treatment involves a series of small injections administered directly to the area affected by excessive sweating.

- Armpits €1.800 - 30 MIN
- Face €1.800 - 30 MIN
- Limbs €1.800 - 30 MIN

FRACTIONAL RADIOFREQUENCY

Fractional radiofrequency (RF) is an advanced aesthetic treatment that rejuvenates the skin by delivering controlled RF energy into deeper skin layers to stimulate collagen production, tighten the skin, and reduce wrinkles, scars, and uneven texture; it is minimally invasive, requires little to no downtime, and results appear gradually over several weeks.

- Face - €800 - 30 MIN
- Neck - €800 - 30 MIN
- Submental area - €800 - 30 MIN
- Décolleté - €800 - 30 MIN
- Arms - €1.000 - 45 MIN
- Abdomen - €1.000 - 30 MIN
- Inner thigh - €1.000 - 30 MIN
- Knees - €1.000 - 30 MIN
- Thigh - €1.000 - 30 MIN
- Buttocks - €1.000 - 45 MIN
- Culotte de Cheval - €1.000 - 30 MIN

MONOPOLAR/BIPOLAR RADIOFREQUENCY

Monopolar and bipolar radiofrequency (RF) are aesthetic treatments that improve skin firmness and texture: monopolar RF uses a single electrode and penetrates deeply for tightening larger areas, while bipolar RF uses two electrodes and targets superficial layers for facial treatments to reduce fine lines, wrinkles, and sagging skin.

- Face - €340 - 30 MIN
- Neck - €510 - 30 MIN
- Submental area - €510 - 30 MIN
- Décolleté - €510 - 30 MIN
- Arms - €510 - 45 MIN
- Abdomen - €510 - 30 MIN
- Inner thigh - €510 - 45 MIN
- Knees - €510 - 30 MIN
- Thigh - €510 - 45 MIN
- Buttocks - €510 - 45 MIN
- Culotte de Cheval - €510 - 30 MIN

OXYGEN THERAPY WITH ACTIVE PRINCIPLES

Oxygen therapy in aesthetic medicine is a non-invasive treatment that rejuvenates and revitalizes the skin by applying concentrated oxygen, often with vitamins and nutrients, to enhance hydration, promote collagen production, and improve texture and tone, reducing fine lines and wrinkles and boosting radiance.

- Dècolleté - €400 - 30 MIN
- Face - €400 - 30 MIN
- Neck - €400 - 30 MIN

PEELING

A chemical peel is a cosmetic treatment that improves skin appearance and texture by applying a chemical solution that causes the outer layers to exfoliate and peel off, revealing smoother, less wrinkled, and more evenly toned skin. It addresses issues like acne scars, hyperpigmentation, fine lines, and sun damage, and comes in superficial, medium, and deep strengths, with varying recovery times.

- Soft peel - €500 - 45 MIN
- Bright peel - €500 - 45 MIN
- Anti-age peel - €600 - 45 MIN
- Anti-age peel (TMC3 + action)
€800 - 45 MIN

CARBOXY-THERAPY

Carboxytherapy is a minimally invasive cosmetic treatment involving the injection of CO₂ gas into the skin and subcutaneous tissue to improve elasticity, reduce cellulite, and diminish stretch marks and dark under-eye circles by increasing blood flow, enhancing oxygenation, and stimulating collagen production.

- Thigh cellulite - €800 - 30 MIN
- Buttock cellulite - €400 - 30 MIN
- Abdominal fat - €400 - 30 MIN
- Arm fat - €400 - 30 MIN
- Capillary prevention - €400 - 30 MIN
- Vascular ulcers - €400 - 30 MIN
- Skin rejuvenation - €400 - 30 MIN
- Stretch marks - €800 - 30 MIN

CRYOLIPOLYSIS

Cryolipolysis, or fat freezing, is a non-invasive procedure that reduces localized fat deposits by applying controlled cooling to targeted areas, freezing and destroying fat cells without harming surrounding tissues, which the body then naturally eliminates over time, resulting in a more contoured appearance.

- Chin - €580 - 30 MIN
- 1 Zone Body - €710 - 30 MIN
- 2 Zone Body - €1.200 - 45 MIN

NEEDLE-FREE MESOTHERAPY (PLAINJECTION)

Needle-free injection, or plainjection, is an innovative, virtually painless aesthetic treatment that uses high-pressure technology to deliver substances like hyaluronic acid and vitamins into the skin without needles, reducing the risk of complications and ideal for needle-phobic patients, for purposes such as hydration, wrinkle reduction, and skin rejuvenation.

- Periocular wrinkles - €425 - 30 MIN
- Perioral wrinkles - €425 - 30 MIN
- Forehead wrinkles - €425 - 30 MIN
- Neck - €425 - 30 MIN
- Décolleté - €425 - 30 MIN
- Eye bags - €425 - 30 MIN
- Hand rejuvenation - €425 - 30 MIN
- PLAI-AGE 4+BTX Package - €2.500 - 45 MIN

808NM DIODE LASER HAIR REMOVAL FACE AND BODY

The diode laser 808 is a type of laser technology used in aesthetic medicine for hair removal, emitting light at 808 nanometers that is absorbed by melanin in hair follicles. This heats and damages follicles, inhibiting hair regrowth effectively across areas like legs, arms, underarms, bikini line, and face, offering fast sessions and long-lasting results with minimal discomfort.

808nm DIODE LASER HAIR REMOVAL - Face

- Eyebrows - €200 - 15 MIN
- Upper lip - €200 - 15 MIN
- Space between eyebrows - €200 - 15 MIN
- Full face - €400 - 15 MIN
- Face and neck - €600 - 15 MIN
- Cheeks - €500 - 15 MIN

808nm DIODE LASER HAIR REMOVAL - Body

- 1 zone body- €400 - 30 MIN
- 2 zone body - €700 - 30 MIN

MS-SCULPT

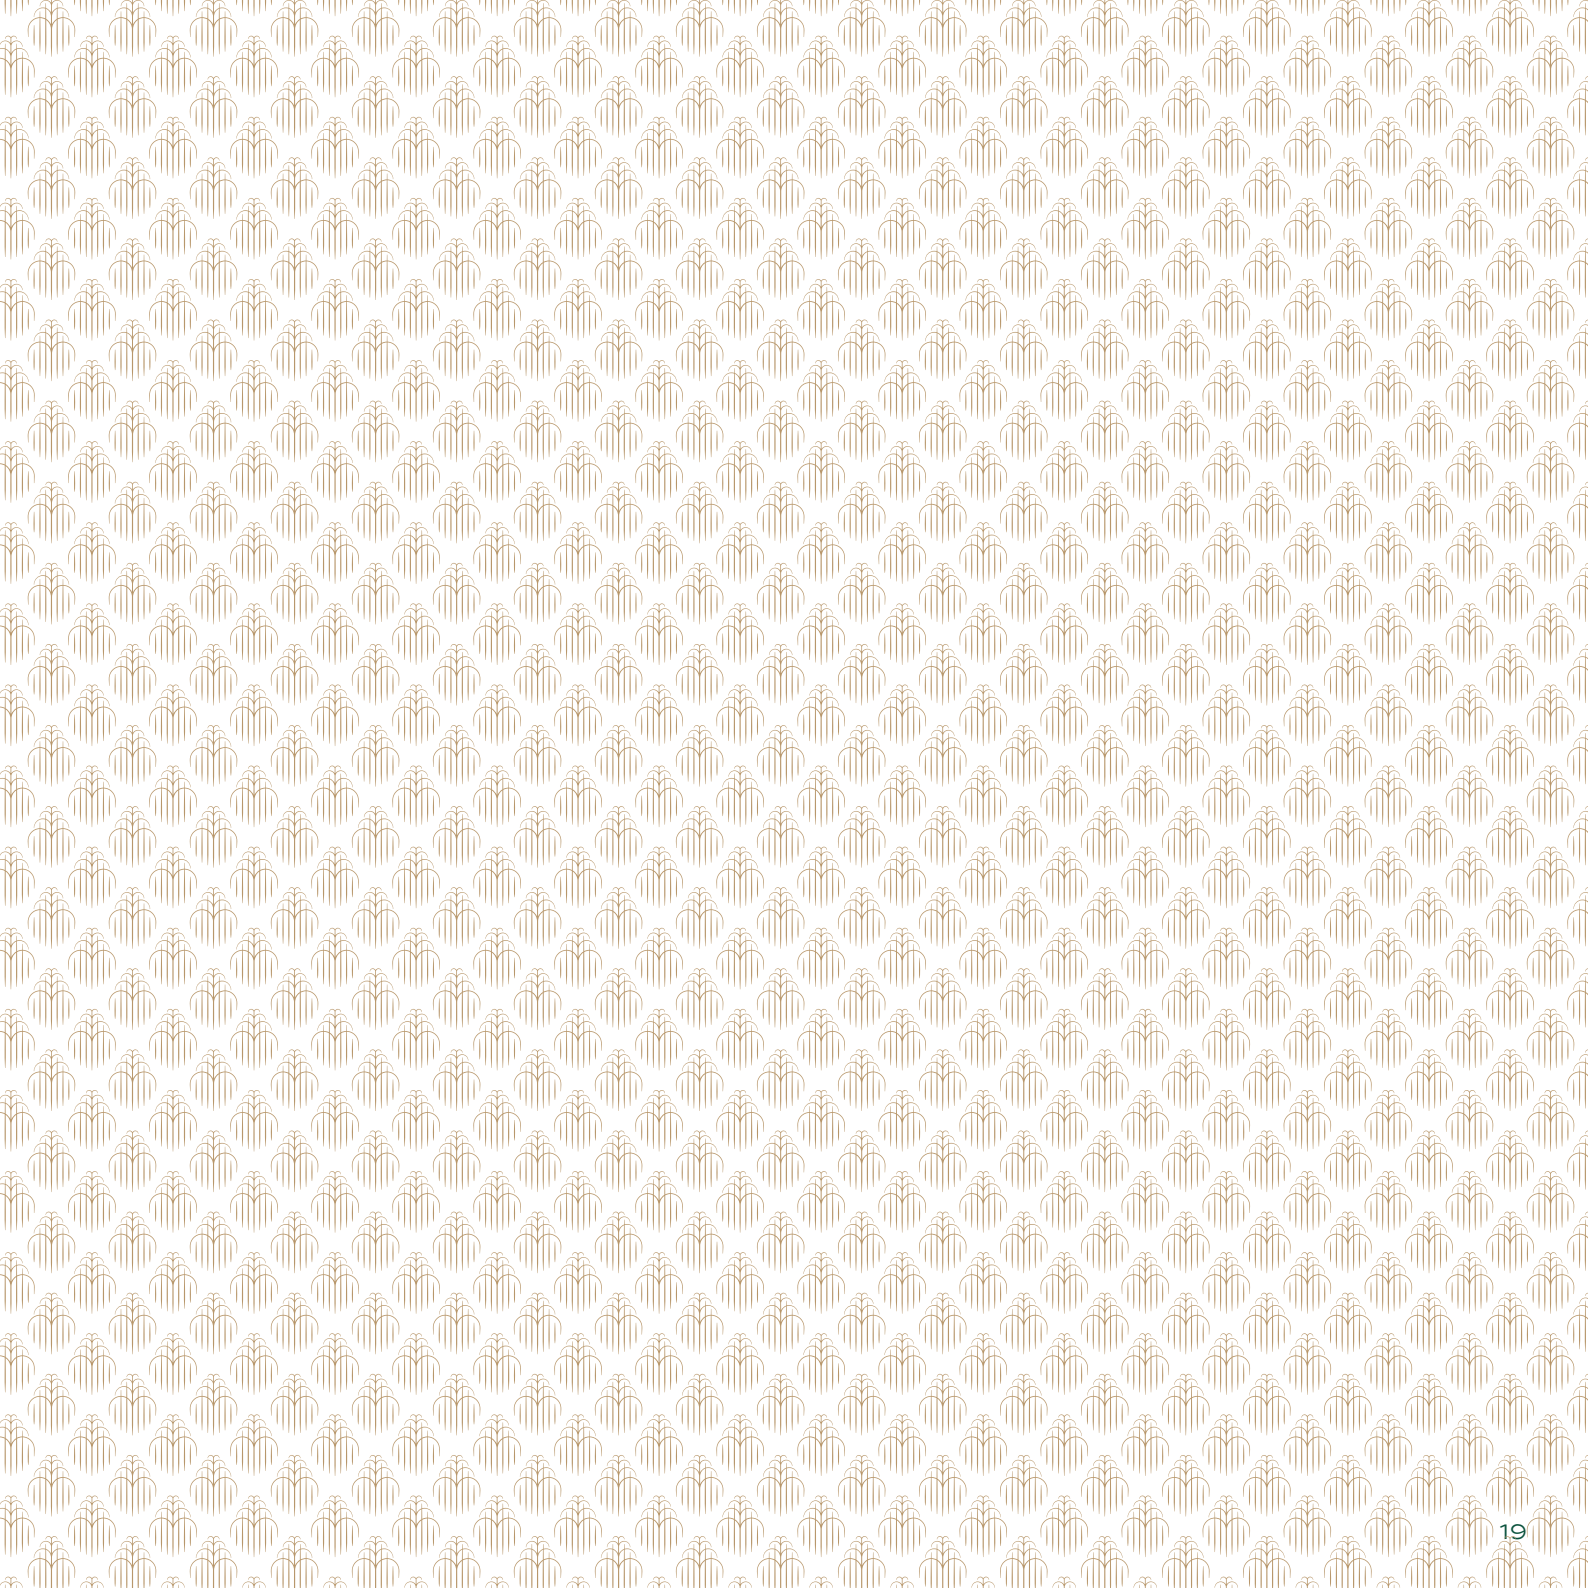

MS-Sculpt is a non-invasive cosmetic procedure using electromagnetic energy to stimulate supramaximal muscle contractions, stronger than voluntary contractions to tone and sculpt the body. Commonly used on areas like abdomen, buttocks, thighs, and arms, it reduces fat and builds muscle mass for a more defined physique, typically requiring several sessions with noticeable results in a few weeks.

- Buttocks - €650 - 45 MIN
- Abdomen - €650 - 30 MIN
- Thigh Outside - €650 - 30 MIN
- Thigh Inside - €650 - 30 MIN
- Under Arms (Triceps & Biceps) - €850 - 45 MIN
- Calves - €650 - 30 MIN

NO-ABLATIVE SURGERY

Non-ablative surgery in aesthetic medicine uses advanced technologies like Plasma to rejuvenate the skin by stimulating the natural healing process, promoting collagen production and tissue regeneration without causing extensive damage or requiring long recovery times. This outpatient procedure allows patients to resume daily activities quickly, representing a significant advancement in cosmetic treatments focused on safety, effectiveness, and patient satisfaction.

- No surgical blepharo - €600 - 30 MIN
- Xantelasma - €300 - 30 MIN
- Fibroma - €150 - 15 MIN
- Pendulous fibroma - €150 - 15 MIN
- Angioma - €150 - 15 MIN
- Wrinkles - €350 - 30 MIN
- Spots - € 300 - 30 MIN
- Nevi - € 250 - 30 MIN
- Acne - € 850 - 45 MIN
- Scars - € 350 - 30 MIN
